BUSINESS DESCRIPTION

- Multi-decade, founder-built QSR platform with a chicken-focused menu
- Hybrid company-operated / franchise model, backed by a proprietary commissary

INVESTMENT HIGHLIGHTS

- Fast-growing category with a durable health-halo consumer tailwind
- Above-peer unit economics and a multi-year track record of margin expansion
- Capital-efficient: structurally negative working capital, low existing leverage
- Clear, identified levers for both revenue growth and margin expansion post-close

TRANSACTION OVERVIEW

- Founder / family ownership evaluating a control (majority) sale; founder expected to retain a meaningful minority stake
- Sourced by Leverage Strategic as a proprietary, off-market target — full diligence package available under NDA

TARGET TIMELINE TO LOI

KEY RISKS

- Geographic concentration in one core state; adjacent-market expansion unproven at scale
- A defined underperforming-store cohort is diluting consolidated margin
- Franchise development function is underbuilt relative to model maturity

DILIGENCE STATUS

Financial & QoE	Complete
Commercial & Customer	Not Started
Legal & Management	Preliminary

WHY NOW

- Founder-led succession creates a proprietary, off-market entry point ahead of a broader process
- Category tailwinds remain intact even as growth normalizes off a multi-year high
- Value-creation levers are identified, quantified, and largely within the buyer’s control post-close
- Low existing leverage leaves meaningful capacity to finance a disciplined growth plan
